Summary

Senior Frontend Engineer with 5+ years of experience building enterprise web applications using React.js, TypeScript, JavaScript, Redux Toolkit, React Query, SWR, Tailwind CSS and Vite. Experienced in developing reusable UI components, integrating REST APIs, implementing RBAC, optimizing rendering performance, and collaborating with cross-functional teams to deliver scalable products.

Skills

Languages

JavaScript, TypeScript, CSS3, HTML5

Frontend

React.js, Redux toolkit, React Query, SWR, Tailwind Css

Testing

React Testing Library, Vitest, MSW

Tools

Vite, Git, i18next

Experience

GlobalLogic India Pvt. Ltd. Sep 2025 – Jun 2026

Senior Software Engineer

- Worked as a Frontend React Developer for the **BMS (Building Management System)** project for **Hitachi Building Systems Co., Ltd.**using **React.js** and **TypeScript**.
- Developed the **Energy module** in the User application to display monthly and yearly energy consumption data for buildings, floors, and rooms.
- Worked in a **monorepo architecture** with a shared UI component library and Integrated REST APIs using **Axios** and **React Query**.
- Built reusable, responsive, and accessible UI components with **Tailwind CSS**, implementing search, filtering, sorting, pagination, **i18n**, and following **WCAG** accessibility standards.

SmartGig Technology Pvt. Ltd. Sep 2020 – Sep 2025

Software Engineer

- Developed and maintained the **GTMx (Global Training Media Exchange)** application for **Mercedes-Benz Research and Development India (MBRDI)** using **React.js** and **JavaScript**.
- Implemented **role-based access control (RBAC)** and built reusable, responsive UI components with **Tailwind CSS**, **i18n**, and **React Hook Form + Yup**.
- Integrated REST APIs using Axios and managed global application state using Rematch (Redux)."

Projects

BMS – Building Management System

Building management system helps monitor and analyze building operations, especially energy consumption across buildings, floors, and rooms.

GTMX (Mercedes-Benz) – Training Media Exchange Platform

GTMX is a web application used to manage and exchange training media such as videos, audio files, documents, and other file types across different countries while supporting multiple languages.

Education

Babu Banarasi Das National Institute of Technology & Management, Lucknow Bachelor of Technology • 75%

Computer Science & Engineering 2014 - 2018
